

**Agenda Item 6.3**  
**Prepared by: C. Marshall**  
**July 2008**

**Adoption of Correct Title for 22 Tex. Admin. Code § 217.20 to be "Safe Harbor Peer Review for Nurses and Whistleblower Protections"**

The new 22 Texas Administrative Code § 217.20 regarding safe harbor peer review was adopted and effective on May 11, 2008 (as published in 33 TexReg 3632). Upon review, it was determined that when this rule was published in the May 2, 2008, edition of the *Texas Register*, the title was "Safe Harbor Peer Review," but it should have been "Safe Harbor Peer Review for Nurses and Whistleblower Protections."

On June 6, 2008, the Texas Board of Nursing (BON) published a correction to the rule title as noted above. No comments were received to this title correction.

At the time of this report the corrected title has been sent to the Texas Register for final publication as adopted, since no comments were received to the correction as published in the 6/6/08 proposed rule section of the Texas Register. The title correction should be made to the TAC web site sometime after publication of this adoption.

This agenda item is for information only, and no board action is needed.
