

Agenda Item: 5.2.1  
Prepared by: J. Zych  
Meeting Date: July 2022

### **Advanced Practice Nursing Advisory Committee Report**

**Summary of Request:** Consider the report of the June 13, 2022, Advanced Practice Nursing Advisory Committee (APNAC) meeting.

**Historical Perspective:** The APNAC met on June 13, 2022, at the Commons Conference Center of the J.J. Pickle Research Center to work on its current charges from the Board. Committee members completed work on their charge to review Board Rule 221.12 to advise on amendments to this rule related to scope of practice for Advanced Practice Registered Nurses (APRNs). The APNAC's recommendations will be presented for the Board's consideration later as agenda item 7.4.

The APNAC also began discussing its charge to make recommendations regarding guidance documents and tools related to APRN scope of practice. These documents and tools are intended to assist APRNs and the public when questions related to scope of practice arise. Committee members made several suggestions that will serve as a starting point for discussion at the next APNAC meeting. The meeting date for the next meeting has not yet been determined.

**Board Action:** This item is for information purposes only.
